TECHNICAL RIDER

- . Necessary space of about 150m2.
- . 2 hours of assembly and 90 minutes of disassembly.
- . The activity can be done both indoors and outdoors.
- . It is not possible to play in the rain.
- . It is not advisable to schedule the installation next to a stage.
- . It is advisable to schedule the installation in the shade.
- . Access by van is required to the assembly site in order to unload the equipment and parking space.
- . We need surveillance. and some bullets to protect the material when we collect at noon.
- . A locked space is needed to collect all the material during the night, as close as possible to the assembly site (wooden house, tin...). If there is an electricity point, better.
- . Technical contact - Àlex Rigol - 607113120 - alexrigol@gmail.com

Thanks!
